Updates on S&I Framework integration/initiative and FHA work

Steve W. informed the group that the comments received on the validation artifacts and the model driven architecture implementation modeling process guide are still being addressed and will be completed in the next couple of weeks. He also reported the progress of the Modeling support that is being provided to the S&I Framework as well as the FHA DE&I WGs.

Terminology Modeling update

Jay L. gave a brief update on the work being done with the Adverse Event Reporting domain. He also recommended that the group visit the Wiki for Terminology Modeling updates.

Other business

- Jay and Steve have not heard whether there will be a FHIM discussion at next week's HL7.
- Jay reminded the group to look at the Wiki. The website was shared with the group and they were given a brief explanation of how to register.
